Inspection Type: ROUTINE INSPECTION
Date: AUG-17-2005

2.40 (b)(3)
ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:
Daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian.
1) The handler has been medicating a small, irritated patch of skin on the right flank of one of the elephants since it was first noticed several days ago. The area appears to be healing satisfactorily; however it is suggested that the attending veterinarian also be informed/consulted about the condition.

This inspection was conducted at the Catskill Game Farm in Catskill, NY.

ANIMAL INVENTORY:
3 Asian Elephants
